April 22, 2020

## COVID-19

REPORTED CASES	
<b>Montana</b> <i>New in last 24 hours: 2 (+less than 0.5%)</i> <i>Hospitalizations, Total: 59 (Last 24hrs: +0)</i> <i>Hospitalizations, Active: 13 (Last 24hrs: -1)</i> <i>Recovered: 296 (Last 24hrs: +23)</i> <i>Deaths: 14 (Last 24hrs: +2)</i> Source: <a href="#">Montana COVID-19 Dashboard</a>	<b>439</b>
<b>United States</b> <i>New in last 24 hours: 22,272 (+3%)</i> Source: <a href="#">Johns Hopkins CSSE Global Outbreak Dashboard</a>	<b>842,376</b>
<b>WA</b>	<b>12,494</b>
<b>ID</b>	<b>1,802</b>
<b>WY</b>	<b>326</b>
<b>ND</b>	<b>679</b>
<b>SD</b>	<b>1,858</b>

Governor Steve Bullock today [announced](#) a gradual and phased reopening of the state beginning Sunday for individuals, and extending to businesses on Monday.

[Montana's plan to reopen](#) relies on Montanans to adhere to social distancing guidelines whenever possible and to continue to limit gatherings. Guidance remains in place for members of vulnerable groups to continue to shelter at home, though it is no longer mandatory. Additionally, visitation at nursing homes will continue to be suspended and older Montanans and those who are immunocompromised should continue to follow the stay at home directive.

The stay at home order will expire on April 26 for individuals and April 27 for businesses. Main street and retail businesses can become operational on or after April 27 if they can adhere to requirements to limit capacity and maintain strict physical distancing. Employers are directed to develop policies to keep employees and customers safe including teleworking when possible, enforcing social distancing protocols, and other measures as provided in an appendix of reopening guidelines.

Places of worship can become operational on April 26 in a manner consistent with social distancing between people who are not members of the same household. Restaurants, bars, breweries and distilleries can begin providing some in-establishment services beginning May 4. Businesses where groups gather without the ability to social distance including movie theaters, gyms and other places of assembly remain closed.

On May 7, all schools will have the option to return to in-classroom teaching delivery at the discretion of local school boards. The Directive does not preclude school boards from declaring local emergencies to continue to receive all appropriate state funding to continue to provide remote learning.

Montana's travel quarantine will remain in effect and out of state travelers and residents arriving from another state or country back to Montana for non-work related purposes are required to quarantine for 14 days.

## OPERATIONS

**ASPR releases new resources on COVID-19.** HHS' Office of the Assistant Secretary for Preparedness and Response has shared a number of [new COVID-19-related resources](#), including alternate care toolkits and strategies; webinars on relieving healthcare worker stress and crisis standards of care; and a workforce toolkit.

**CMS adds new blanket waivers.** CMS has announced additional blanket waivers for Medicare providers, which are now included in its running [list of waiver](#)

[flexibilities](#). The new waivers include the following changes (page numbers noted):

- Temporary Expansion Locations for RHCs and FQHCs: During the public health emergency, CMS is allowing rural health clinics (RHCs) and federally qualified health centers (FQHCs) to expand service locations to better meet beneficiary needs. The agency is doing so by temporarily waiving current regulations that require RHCs and FQHCs to be independently considered for Medicare approval if services are provided in more than one location. See page 7 for more.
- Substitute Billing (Locum Tenens): On page 18, CMS explains that it is allowing a physician or physical therapist to use the same substitute for the entire time he or she is unavailable to provide services during the COVID-19 public health emergency. To do so, CMS is modifying the current 60-day limit for using substitute billing arrangements.
- Patient Care in LTCHs: CMS also includes additional changes related to patient care for those in long-term care hospitals (LTCHs). Changes pertain to expediting discharge and movement of patients across care settings through waiving more detail intensive requirements. See page 2 for more.
- Intermediate Care Facilities: CMS is temporarily waiving certain staffing and training requirements for intermediate care facilities, outlined in greater detail on page 16.

## PLANNING

**State of Montana announces changes, clarifies required data and resource reporting.** In keeping with federal data reporting requests and requirements, and recognizing existing data collection systems already in place in Montana, DPHHS clarified data reporting by hospitals in this [memo](#) released April 16.

- Juvarre/EMResource: Continue to report bed availability and ventilator capacity by 8:00 a.m. daily.
- PPE Survey Tool: PPE data will be reported to a [new PPE Survey Tool](#) instead of EMResource.
- COVID-19 Patient Survey Tool: Used to collect hospitalization data, and only to be used at the direction of DPHHS officials following acquisition of confirmed COVID-19 patient.

## LOGISTICS

**Submit PPE needs to DES coordinator in order to ensure allocation.** In order to receive an allocation of emergency PPE, healthcare organizations MUST [submit](#)

[needs to their local DES coordinator](#). Allocation is ongoing and supplies are limited.

## FINANCE & ADMINISTRATION

**HHS releases more information on CARES funding.** HHS Secretary Alex Azar today released [more information](#) on the future distribution of CARES funds. Key points include:

- \$20 billion in “general funds” are going to hospitals and doctors on Friday. This allocation will be made using the same methodology as the first round of funding, but based upon patient revenue from 2018 instead of 2019, which was what was used for the first tranche of \$30 billion.
- On April 24, a portion of providers will automatically be sent an advance payment based off the revenue data they submit in CMS cost reports. Providers without adequate cost report data on file will need to submit their revenue information to a portal opening this week linked on this page for additional general distribution funds.
- As early as next week, \$10 billion will be targeted at hot spots based on TeleTracking data submission. Using New York as an example, Azar said that if it has 40% of Covid-19 cases it would get \$4 billion.
- As early as next week, \$10 billion will be delivered to rural hospitals and \$400 million to Indian Health Services providers that will be allocated “based upon operating expenses.”
- The remaining \$29.6 billion in CARES funds for healthcare providers will be distributed to “Medicaid-only providers, dentists, skilled nursing facilities in hot zones, care for the uninsured, and additional hot spot funds as needed.”
- Of that \$29.6 billion, \$1 billion will be put into a fund to reimburse care for the uninsured that will be managed by HRSA.
  - Providers will need to enroll in the program and submit claims for any care that happened after Feb. 4.
  - Reimbursement will be for testing and care related to a Covid-19 diagnosis, including hospital care, outpatient care, nursing facilities, and FDA-approved treatments.
  - A person with a short-term health insurance plan doesn’t count as uninsured.
  - Providers can start registering to receive payments for uninsured care April 27, submit claims starting May 6, and receive payments starting in mid-May.
  - The process for submitting uninsured claims for the can be found [here](#).

**New CMS toolkit to aid workforce maximization at state and local levels.** CMS today [unveiled](#) a new [COVID-19 workforce toolkit](#) for state and local healthcare decision makers seeking to maximize workforce flexibilities.

**HHS to waive National Practitioner Data Bank query fees.** The Health Resources and Service Administration [announced](#) that the National Practitioner Data Bank will reimburse entities that conducted queries (one-time and continuous) via query credits, retroactive to March 1, 2020, and lasting through May 31. The NPDB assists healthcare organizations in their hiring, licensing and credentialing decisions through its repository of reports on healthcare fraud and abuse. For additional information, join NPDB's April 23 call at 1 p.m. ET. Attendees' dial-in is 888-566-6153 and the access code is 1104687.

## COMMUNICATIONS

**Call recordings and webinar playbacks.** Missed a call or webinar promoted in MHA's daily COVID-19 Call & Webinar Alert? Many are recorded, and are [posted here](#) once available.

**COVID-19 Resource Library.** MHA has built a [library](#) of helpful resources and sample material from other hospitals, healthcare organizations and states in their response to COVID-19.

**HHS hospital-specific COVID-19 questions:** [HospitalCOVID19@hhs.gov](mailto:HospitalCOVID19@hhs.gov)

**SITREP Archive.** Daily Situation Reports archived [here](#).

**State of Montana COVID-19 Hotline:** 1-888-333-0461

Montanans can also email questions to [covid19info@mt.gov](mailto:covid19info@mt.gov). State public health officials will be responding to inquiries from 8 a.m. to 5 p.m. Monday to Friday.

**MHA Incident Management Team:** [esf8@mtha.org](mailto:esf8@mtha.org)
