ND	30,517
SD	31,012

PLANNING

New HHS data reporting platform - Single data entry fulfills state and federal requirements. MHA has purchased a new HHS Data Reporting Platform with COVID-19 grant funding. This creates a single, secure data entry point to fulfill both state and federal requirements, including state PPE resource allocation and HHS Teletracking mandates. This new single-entry system is especially critical with CMS' new rules that require such reporting as a Condition of Participation for Medicare and Medicaid. Hospitals will face possible termination of Medicare and Medicaid payments if unable to correct reporting deficiencies. See the complete details on the new platform [here](#).

As of September 8, 2020 hospitals should utilize EMResource for statewide bed availability, PPE and Remdisivir data, as well as, all TeleTracking data points, including HHS lab testing. Upon entering HHS data into EMResource, Juvare will automatically upload data to TeleTracking on behalf of your facility daily. Facilities may continue entering their own data into TeleTracking if they choose. All laboratories conducting COVID-19 testing and reporting patient-specific results – including hospital labs, nursing homes, and other facilities conducting testing for COVID-19 – will be required to comply. If a laboratory does not report the required information, CMS will impose a civil monetary penalty in the amount of \$1,000 a day for the first day, and \$500 for each subsequent day.

Long-Term Care facilities must transition all PPE and bed reporting to EMResources as of October 1, 2020. The previous [weekly survey](#) hosted on Formstack will become inactive on October 1, 2020. Facilities that do not have access to EMResource should email contact information to hppcoordinators@mtha.org.

For questions, please contact your [Regional Coordinator](#).

LOGISTICS

Submit PPE needs to DES coordinator in order to ensure allocation. Until further notice, healthcare organizations MUST [submit needs to their local DES coordinator](#) in order to receive an allocation of emergency PPE.

FINANCE AND ADMINISTRATION

CMS releases preliminary Medicaid and CHIP data snapshot on telehealth utilization during public health emergency. Among other findings, the [snapshot](#) showed that there have been more than 34.5 million services delivered via telehealth to Medicaid and CHIP beneficiaries between March and June of this year, representing an increase of more than 2,600% when compared to the same period from the prior year.

Kaiser study: COVID-19 results in increased Medicaid enrollment, spending. Medicaid enrollment for fiscal year 2021 is expected to jump 8.2%, with state spending to accelerate by 8.4%, according to data from 42 state Medicaid directors and [compiled](#) by the Kaiser Family Foundation. KFF cites COVID-19's health and economic consequences, along with a temporary federal match rate increase, as the reasons for both increases.

COMMUNICATIONS

Call recordings and webinar playbacks. Missed a call or webinar promoted in MHA's daily COVID-19 Call & Webinar Alert? Many are recorded, and are [posted here](#) once available.

COVID-19 Resource Library. MHA has built a [library](#) of helpful resources and sample material from other hospitals, healthcare organizations and states in their response to COVID-19.

HHS hospital-specific COVID-19 questions: HospitalCOVID19@hhs.gov

SITREP Archive. Daily Situation Reports archived [here](#).

State of Montana COVID-19 Hotline: 1-888-333-0461

Montanans can also email questions to covid19info@mt.gov. State public health officials will be responding to inquiries from 8 a.m. to 5 p.m. Monday to Friday.

MHA Incident Management Team: esf8@mtha.org
