PLANNING

HHS issues updated COVID-19 data reporting guidance. HHS on Nov. 9 updated its [guidance to hospitals](#) on the reporting of COVID-19-related data. The guidance includes two key changes stemming from the CMS' Dec. 2 [interim final rule](#) expanding the requirement for hospitals to report COVID-19 data. Influenza data fields will be mandatory starting on Friday, December 18. Therapeutic data fields are now mandatory beginning today, January 8.

HHS data reporting platform - Single data entry fulfills state and federal requirements. MHA has purchased a new HHS Data Reporting Platform with COVID-19 grant funding. This creates a single, secure data entry point to fulfill both state and federal requirements, including state PPE resource allocation and HHS Teletracking mandates. This single-entry system is especially critical with CMS' rules that require such reporting as a Condition of Participation for Medicare and Medicaid. Hospitals will face possible termination of Medicare and Medicaid payments if unable to correct reporting deficiencies. See the complete details on the new platform [here](#).

As of September 8, 2020 hospitals should utilize EMResource for statewide bed availability, PPE and Remdisivir data, as well as, all TeleTracking data points, including HHS lab testing. Upon entering HHS data into EMResource, Juvare will automatically upload data to TeleTracking on behalf of your facility daily. Facilities may continue entering their own data into TeleTracking if they choose. All laboratories conducting COVID-19 testing and reporting patient-specific results – including hospital labs, nursing homes, and other facilities conducting testing for COVID-19 – will be required to comply. If a laboratory does not report the required information, CMS will impose a civil monetary penalty in the amount of \$1,000 a day for the first day, and \$500 for each subsequent day.

As of October 1, 2020 long-term care facilities must report all PPE and bed reporting to EMResources. The previous weekly is inactive on October 1, 2020. Facilities that need assistance should email hppcoordinators@mtha.org.

For questions, please contact your [Regional Coordinator](#).

LOGISTICS

Submit PPE needs to DES coordinator in order to ensure allocation. Until further notice, healthcare organizations MUST [submit needs to their local DES coordinator](#) in order to receive an allocation of emergency PPE.

FINANCE AND ADMINISTRATION

Report looks at economic outlook for healthcare, other sectors. The U.S. Chamber of Commerce today released a [compilation of perspectives](#) on the economic impact of the COVID-19 pandemic on various sectors and the outlook for 2021. AHA President and CEO Rick Pollack and Federation of American Hospitals President and CEO Chip Kahn contributed to the healthcare section, noting that reports released in May and June projected at least \$323.1 billion in financial losses for hospitals and health systems through 2020.

UnitedHealthcare suspends certain prior authorization requirements for in-network hospitals, SNFs due to COVID-19. UnitedHealthcare has suspended through the end of this month certain prior authorization requirements for in-network hospitals and skilled nursing facilities in its Medicare Advantage, Medicaid, individual and group health plans. The suspensions are effective Dec. 18, 2020, through Jan. 31, 2021.

“After Jan. 31, 2021, we may retrospectively review select services rendered during this time period,” the health insurer said on its [website](#). “Admission notification is still required during this time, in alignment with the current protocol to support you in arranging post-admission care or other support services, if needed.”

COMMUNICATIONS

CDC updates COVID-19 Vaccination Communication Toolkit. The CDC recently updated its [COVID-19 Vaccination Communication Toolkit](#) for medical centers, clinics, and clinicians. Resources include social media resources, videos and FAQs as well as other digital and print resources.

Call recordings and webinar playbacks. Missed a call or webinar promoted in MHA’s daily COVID-19 Call & Webinar Alert? Many are recorded, and are [posted here](#) once available.

COVID-19 Resource Library. MHA has built a [library](#) of helpful resources and sample material from other hospitals, healthcare organizations and states in their response to COVID-19.

HHS hospital-specific COVID-19 questions: HospitalCOVID19@hhs.gov

SITREP Archive. Daily Situation Reports archived [here](#).

State of Montana COVID-19 Hotline: 1-888-333-0461

Montanans can also email questions to covid19info@mt.gov. State public health officials will be responding to inquiries from 8 a.m. to 5 p.m. Monday to Friday.

MHA Incident Management Team: esf8@mtha.org
